The MHSSO Instructional Technology Unit

Presents

Software Review for the High School Classroom Across the Curriculum

Objectives:

Participants will be able to:

- *Review online and offline software that infuses technology across the curriculum*
- *Identify and discuss ways in which offline instructional technology and web-based software resources can be used / adapted to specific classroom instructional settings*
- *Locate a minimum of two classroom activities from the software reviewed to be used as instructional tools that are aligned with the NYS/NYC Learning and Performance Standards*
- *Use rubrics to effectively evaluate software reviewed*
